THE DISTURBANCES IN MISSISSIPPI. TELEGRAMS FROM FEDERAL OFFICIALS THE GENERAL GOVERNMENT NOT AS

YET CALLED UPON. WASHINGTON, September 7 .- Telegrams have been received by the Attorney-General

from the United States district attorney and constantly being received from persons who have the United States marshal at Jackson, Miss., with reference to the recent disturbances great value. It is recommended by physicians and only there between white and colored citizens. The information conveyed is substantially to the effect that at a political meeting held VEGETINE is not prepared for a fancy drink, made from poor liquors, which deblitates the system and tends to destroy health instead of restoring at Clinton, Miss., on Saturday last, a row originated, during which three whites and four colored persons were killed and many Are not the many testimonials given for the dif-ferent complaints satisfactory to any reasonable person sufferlyg from disease that they can be cured? Kend the different testimonials given, and wounded. There does not seem to be any attack or violation of the laws so far as the cured? Read the different testimonials given, and no one can doubt. In many of these cases the persons say that their pain and suffering cannot be expressed, as in cases of scrofula, where, apparently, the whole body was one mass of corruption. If VEGSTINE will relieve pain, cleanse, purify, and cure such diseases, restoring the patient to perfect health after trying different physicians, many remedies, suffering for years, is it not conclusive proof, if you are a sufferer, you can be cured? Why is this medicine performing such great cures? If works in the blood—in the circulating field. It can be truly called the Great Blood-Purifer. The great source of disease originates in the blood; and no medicine that does not act directly upon it. United States authorities are concerned, and up to a late hour this afternoon there have been no suggestions in any way from the Federal officials which should lead to the interference of the General Government, though Jackson was re-presented as being in a very high state of excitement, and the officers sending the telegrams were of the opinion that the State authorities were powerless to prevent a continuation of the disorder.

The Attorney-General has telegraphed to the district attorney and United States marshal at Jackson to do all in their power to preserve order, but as there has been no call rom the United States authorities for assistance no further directions have been given. Should application be made from the officers of the General Government stationed in the disturbed places for aid in preserving the laws or in supporting their official authority it is probable that the Attorney-General would ask for the assistance of the military but to this time there have been no such demands or suggestions.

Indian Outbreak in Nevada and Utah. San Francisco, September 7 .-- An extensive Indian outbreak is reported in Eastern Nevada and Western Utah. A number of settlers and miners have been killed. The women and children are being removed to places of safety, and troops and volunteers are going to the scene. The rising is attributed to Mormon influences.

Died from Brutal Treatment. NEW YORK. September 7 .- The coroner's verdict in the case of Connally, alleged to have died from brutal treatment in the pen-

itentiary, is as follows: "The deceased came to his death by softening of the brain, accelerated by bru.al treatment at the hands of the keepers."

Brutal Attempt at Outrage. Augusta, Ga., September 7 .-- A dispatch from Coniers, Ga., reports that James T. Heard attempted a rape on two daughters of M. E. Chamberlain, aged nine and eleven. The girls escaped and reported the outrage. Heard was beaten severely by Chamberlain, and then confined in jail. He denies the

no medicine that does not act directly upon it to purify and renovate has any just claim upon public attention. When the blood becomes lifeless and stagnant, either from change of weather or of climate, want of exercise, irregular diet, or from any other cause, the VEGETINE will renew the blood, carry off the purid humors, cleanse the stomach, regulate the bowels, and impart a tone of vigor to the whole body. The conviction is, in the public mind as well as in the medical profession, that the remedies supplied by the Vegetable Kingdom are more safe, more successful, i., the cure of discase, than mineral medicines. VEGETINE is composed of roots, barks, and herbs. It is nieasant to take, and is perfectly safe to give an infant. Do you need it? Do not hesitate to try it. You will never regret it.
